## About the newsletter

The award winning *Freeman Honors*, is the bi-annual newsletter of the Thomas F. Freeman Honors College at Texas Southern University. It connects the students, faculty and office personnel of the College with its many benefactors and partners in education within the University.

The College anticipates that this connection will reflect and cultivate the relationships in a family whose members are dedicated to maximizing the preparation of College students for service as citizens and as leaders in a global society.

Greetings!

The Thomas F. Freeman Honors College is once again under transition with the retirement of **Dr. Dianne Jemison Pollard** last December 2022.

Dr. Pollard served as faculty in TSU for 44 years, and as dean of the Honors College over the last five years. During her tenure, she implemented many novel programs which propelled the College to new heights of academic excellence at TSU. Dr. Pollard formed the current Honors College Advisory Board, reinstated the Honors core classes, created the annual Spring Tribute Luncheon fundraiser, and implemented the Senior Honors Thesis program. Under her leadership, I was honored to serve as the Assistant Dean for Academic Affairs. In

the spring of 2021, Dr. Pollard supported my efforts to establish a permanent digital platform to house the senior theses, and thus, the open-access *Freeman Research Journal* was born!

The in-house journal, along with all the new programs which Dr. Pollard instituted at the Honors College, solidified the foundations laid down by the previous deans of the College; starting with our beloved founding dean, **Dr. Thomas F. Freeman**, the legendary coach of the famous TSU debate team. Dr. Freeman was followed by **Dr. Humphrey Regis**, **Dr. Elizabeth Brown-Guillory**, and finally, Dr. Dianne Jemison Pollard until 2022.

As the current Acting Dean, I intend to follow the footsteps of my predecessors, and build on the foundations they laid down. Last Spring of 2022, we transformed the Frederick Douglass Lecture Series to a social media event, calling it "TSU TALK / A Frederick Douglass Lecture." The lectures were recorded for YouTube for posterity, and to reach the global audience. In the Fall of 2023, we will begin the Junior Thesis Exploration and Proposal (JTEP) program where Honors juniors start developing their thesis proposals. We are currently revising the Honors College website to be more dynamic, informative, and reflective of the evolving strengths of our program. We have established collaborations within, and outside TSU. These include the School of Communication for the TSU TALK lectures, among others.

Historically, transitions have not been easy, however, with exemplary teamwork and the support of the Honors College staff, we made things happen. Allow me to use this opportunity to thank our selfless and dedicated staff members without whom this would not have been possible: **Ms. Renuka Nair**, the Director of Academic & Student Services, **Mr. Shandon Neal**, the Director of Operations, and our Graduate Assistant, **Ms. Aliah Pinder**.

Thank you, and I hope you enjoy this issue of *Freeman Honors*!

Dr. Hector C. Miranda, Jr,

After completing a successful first semester in the Honors College, the Freshmen were officially inducted into the College on Wednesday, February 8, 2023. The induction ceremony took place in the Heartman Collection room of the Library Learning Center. In a beautiful and symbolic candle-lighting ceremony, the newly inducted Freeman Scholars pledged to uphold the Honors College core values of Honesty, Integrity, Community, Creativity, and Excellence. The special speakers for the event were **Mr. Blake Melton** (Biology, May 2023), **Dr. Kenyatta Cavil** (Honors Faculty Fellow) and retired Honors College dean, **Dr. Dianne Jemison Pollard**, who also led the scholars in the Honors Pledge.

The Honors College hosts the TSU Chapter of the Golden Key International Honour Society (TSU-GK). On Thursday March 30, the chapter held its New Member Induction Ceremony, in the Honors College. Recognized for her student-focused tireless service to the University and her excellence in scholarship and leadership, **Ms. Zuri Dale** was inducted as an Honorary Member. **Ms. Dale**, who is the University's Epidemiologist, also serves as the Executive Director of Research & Innovation Initiatives, the Director of the Center for Transformative Health and is an Adjunct Faculty member in the College of Pharmacy and Health Sciences. Ms. Dale gave an inspiring keynote speech, sharing lessons she learned as a student, encouraging the new and current members to not be afraid of striving for excellence and congratulated them for their achievements.

Golden Key is the world's largest collegiate honor society, dedicated to Academics, Leadership, and Service. Membership into the Society is by invitation from the national office in Atlanta, to the top 15% of university sophomores, juniors, and seniors, as well as top-performing graduate students in all fields of study, based solely on their academic achievements. **Ms. Renuka Nair** and **Mr. Shandon Neal** serve as the TSU-GK chapter advisors.

## TSU TALK Goes Global!

In the Spring of 2023, the Honors College launched TSU TALK / A Frederick Douglass Lecture, a reimagined endeavor, fostering a timely collaboration with the School of Communication. With recently acquired state-of-the-art audiovisual equipment, the School of Communication has committed to help the Honors College bring the Frederick Douglass Lecture Series to the global audience. TSU TALK is designed to be a media event recorded for YouTube, essentially serving as a digital repository and ensuring that the lecture is not forgotten and becomes accessible to the global audience.

The inaugural TSU Talk was on February 15, 2023 by **Dr. Christian Ulasi** on “The enduring role of media in a democratic society,” where he argued for the power of media, and social media, in ensuring the survival and persistence of democratic societies.

The second TSU TALK was on “Nuclear fusion: The promise, hope, and reality” by **Dr. Daniel Vrinceanu**, a top-notch theoretical physicist from the Department of Physics, and held last March 23, 2023.

On December of 2022, scientists at the Lawrence Livermore National Laboratory achieved a breakthrough in generating a significant amount of energy from nuclear fusion. This was considered extremely important, especially with the current situation of modern society beset with environmental problems at the global scale. Nuclear fusion holds the promise of limitless clean energy, and Dr Vrinceanu presented the facts in laypersons’ terms, presented the scientific challenges and hope that the technology offers for the future of humanity.

### LECTURER

***Dr. Daniel Vrinceanu***

The Honors College continues to expand the themes for the lecture series to issues that are global in scope and relevance. Through the lecture series, the Honors College has hosted great thinkers such as **Dr. Lovell Jones**, and the **Honorable Teta Banks** of the United Nations Associations of Houston and many more. In the fall of 2018, the College celebrated the release of the bicentennial edition (1818-2018) of *Narrative of the Life of Frederick Douglass, An American Slave*, written by **Frederick Douglass**, with guest lecturer **Mr. Kenneth B. Morris**, the great, great, great, grandson of Frederick Douglass. These insightful lectures have unfortunately not been audio-visually recorded for posterity. We are now using the power of the internet and modern technology, to help promote these insightful events beyond the Honors College, and TSU. These and future “Talks” will be mirrored on our updated website.

## FREEMAN SCHOLARS SERVE AS PANELISTS FOR WOMEN IN STEM DAY AT TSU

On Sunday, March 26, TSU hosted Women in STEM Day in the Tiger Room in the Sterling Life Student Center. The event, organized by **Executive Director Kia Harper**, served to introduce a group of 40 girls ranging from seventh grade through high school from historically underserved communities, along with parent chaperones to career pathways in STEM. The event was co-sponsored by TSU Regent **Dr. Mary Sias** and the Dallas Chapter of the Links Inc. organization as part of their STEAM Academy.

Nine Freeman Scholars, along with two students majoring in Aviation Science, served as panelists and answered questions about majoring in STEM disciplines. The scholars also talked about their personal journeys toward selecting a STEM major and their proposed career pathway upon graduation. The young attendees enjoyed the presentations from the Freeman Scholars and were delighted to mingle with them after the presentations and panel discussions.

## **2023 5TH ANNUAL SPRING TRIBUTE & LUNCHEON**

"Blooming together through Faith, Family and Community" was the theme of the 5th Annual Spring Fundraiser Luncheon for the Thomas F. Freeman Honors College. Spotlight was placed on recognizing Faith, Family and Community Leaders with a goal of raising funds for the programmatic thrust of the Honors College.

Proceeds generated assist with our scholar out-of-classroom experiences like our Research and Recruitment Trip and Study Abroad Scholar Sponsorship activities. This year's Spring Luncheon also highlighted our Freeman Scholar Leadership; Mister and Miss Honors College along with our Freeman Honors Student Senator, **Kristian Salas (Pharmacy)**. Guests were entertained by the profound words of the TSU Debate Team and soothing sounds of **DJ Lefty**.

The Honors College works to provide experiences for our scholars that take them into real-world situations. We hope that through raising their awareness of community and commitment they will reach greater heights and give back themselves once they become alumni.

Freeman Scholars are leading this year's graduating class, including the Class Valedictorian and Salutatorian, together with the outgoing SGA President. **Noralis Rodriguez-Santiago**, Biology major, with a GPA of 3.98, is Class Valedictorian. Ms. Rodriguez-Santiago was recruited by the Honors College as a top scholar and has represented TSU as a member of the TSU Softball Team. She recently presented her Honors thesis, entitled "The effects of high-level athletics on female athletes." She has been admitted to the UT Health Houston-McGovern Medical School.

**Devansh Chadha**, Class Salutatorian, is a Business major, with a GPA of 3.97. His Honors thesis is on "Financial analysis and cost of capital against industry standards for a publicly traded company." He was admitted to the Honors College as a Continuing Student and was a recipient of the "Double 4.0" Award during the 2023 University Honors Day Convocation. He is also the Captain of the TSU Golf Team. Mr. Chadha will be starting an MBA program at the Jesse H. Jones School of Business.

The Valedictorian and Salutatorian will be among the 26 Freeman Scholars graduating this Spring of 2023. The Freeman Honors graduating class also includes **Dexter Maryland**, outgoing President of the Student Government Association. Mr. Maryland's Honors thesis is on "The criminalization of young black Americans: An examination of the impact of systemic racism on the criminal justice system" He represented TSU in the prestigious 2021-22 White House Initiative HBCU Scholars Program. Mr. Maryland has been offered a full scholarship and will be embarking as the inaugural Pickering Fellow at the Johns Hopkins University School of Advanced International Studies.

"We are thrilled and proud of the accomplishments of our scholars. They are the shining testament to TSU's new brand of student leadership and academic excellence." Said acting dean of the Thomas F. Freeman Honors College, Hector Miranda.
