The Pre-Pharmacy curriculum at TSU is designed to help prepare students in applying for the TSU Professional Pharmacy program. Students should always refer to the pre-pharmacy prerequisite list for any changes and options since the program requires courses that go beyond the TCCNS Core Curriculum. *Notes TCCNS courses that have been approved to meet specific TSU Pharmacy prerequisite courses but are not official equivalents of the requirements. Students must have a minimum overall GPA of 2.75 and minimum Math/Science GPA of 2.75 to be eligible to apply for the professional phase of the Doctor of Pharmacy program. For additional application requirements and current prerequisite list, please visit our webpage. TSU limits the number of credit hours transferred in from community colleges at 66 hours.
