

How to Set up a test that requires the use of Respondus Lockdown Browser in Blackboard:

1. Set up your test as normal making it available. Set the start and finish time and also the duration of the test.

2. In the **Control Panel** click on **Course tools**

3. In course tools click on **Respondus lockdown browser**

4. In Respondus lockdown browser all courses that you have set up and deployed should appear list here. Next to your course of choice click on **Settings**

5. Select require **Respondus Lockdown Browser** for this test and click **Submit**
