### Analysis:
In the table above, in the fall of 2012 semester five candidates completed a self-evaluation and the candidates were evaluated by university faculty and an external practitioner which resulted in an overall mean score of 4.69 out of 5.00. The university faculty had a mean score of 5.00 out of 5.00 for each of the nine items; while the candidates had a mean score of 4.72 out of 5.00 and the external practitioner had a 4.36 mean score out of 5.00. According to the data, the evaluators “strongly agree” that the candidates have mastered the 9 items on the Perception’s Instrument.
