2.3.g Data-driven changes that have occurred over the past three years

The Unit analyzes and reflects on the assessment results as a way to identify areas of strength as well as those needing improvement. Since the implementation of the assessment system, data-driven changes have occurred. The following are examples of some of the data driven changes in the past three years (Exhibit 2.3.g10). Each department is required by the University to complete action plans for SACS and upload to XTRICAS.

- See XTRICAS for Departmental Improve Plans
- See Dean’s Data Book
