Wright, L. (2013). Sex education and early childhood interventions, Oral Presentation Texas Southern University Research Week (April 2-5) Department of Counseling Student Candidate

The internal and external funding portfolio of faculty is both a marker and a driver of progress on the path to education excellence in higher education. External funding supports the research, instructional, and outreach activities of our faculty, allowing them to undertake projects that they could not otherwise pursue. Several graduate faculty members serve as Principle Investigator or Co-Principle Investigator for the grants awarded.
